Re: Bob Seeman
(J Robert Roofing, Inc.)

To whom it may concern;

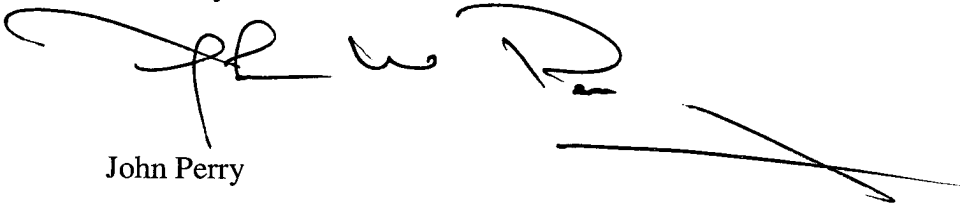

I'm aware that Mr Seeman is being considered for the BBB's Integrity Award and would like to contribute a few words that may further his consideration for that award.

I met Bob, several years ago, when he and a former partner of another roofing business purchased insurance from my agency. During the time I've been acquainted with him and his business operations, I have witnessed his quality work, have come to trust him to keep his promises and to rely on him as an expert on roofing, when a client of mine my question or protest a decision about their roof's condition after an insurance claim. Bob Seeman not only takes the time to listen, offers clear answers to my questions but has also volunteered his time to inspect roofs for some of my most difficult clients, during claim disputes and has helped my clients determine the source of water leaks.

Because of the trust I've gained in Bob, I often refer clients to him for roof replacements. Every time my clients contract with Bob for roof work, I follow up with my clients for their opinion of my referral. I have never heard a negative word about him, only praise and gratitude for the referral.

The Integrity Award sounds fitting for Mr. Seeman. He's demonstrated integrity and good character consistently, since the day I met him, well over a decade ago.

Sincerely,

John Perry
